Description

This is a cost effective entry level complete turbo kit for the 05.5 - 14 VW which can be installed in a single day. This kit has been designed to be installed on your stock 2.5 car. By installing our new cast manifold, T3 turbo and 2.5" DP, you will be able to reconnect to the factory exhaust. Kit comes with all components listed below, including C2 turbo software. C2Motorsports components are hand-built and TIG welded on manufacturing jigs for proper fit and accuracy.

Stage 1:

225hp capable

Manual/Tiptronic compatible

[Stage 1 Turbo Kit](#)
